

## Fourth PMSE Workshop of EuMW2017, 9 October 2017 at Nurnberg, Germany

Dear Sir or Madam,  
Dear colleagues,

In recent years, three highly specialized workshops on PMSE took place within the framework of the European Microwave Week:

[11. Oktober 2013 – Nürnberg](#) / [7. September 2015 – Paris](#) / [3. Oktober 2016 – London](#)

Within the scope of these events, the change process for PMSE frequency domains, its consequences, the work in international committees and extensive student activities were discussed.

We are currently finalizing our preparations for the fourth workshop scheduled to be held in Nuremberg on 9 October 2017. In doing so, we are focusing on these high-lights:

*I - The Application PMSE and it's practical needs for continued PMSE operatinon in a growing production environment*

*II - PMSE as the object of the work of political bodies of Europe*

*III - PMSE as the object of the work of Science, Study Groups and Manufacturers*

*IV - Panel discussion - Changes in PMSE spectrum allocations their impact on Cultural and Creative Segments*

We would like to invite you and your organisations to participate. Please consider attending this event.

Thank you in advance for your support.
