How APWPT works: What can you expect?

Together we represent the interests of PMSE users and manufacturers in international and national committees, at world radio conferences, vis-à-vis authorities, politicians, the press and the public. We campaign for sufficient interference-free frequency spectrum.

The Board of Directors manages the association's business, finances, legal requirements, data protection and fulfills other tasks specified in the Articles of Association.

The Members elect the Board of Directors every three years.

Use cases spectrum requirements

Capturing application scenarios together with users and radio frequency managers to provide a description of the use of radio spectrum in the production of content and events.

Regulation

Defining strategies to secure PMSE ecosystem; Representation in technical regulation; Contribution to policy consultations.

Innovation

Investigate emerging technologies to support PMSE use cases. Provide technical feedback, guidance and recommendations to relevant organisations. Support research.

Promotion & Communication

Internal and external communication, coordination with Wider Spectrum Group and SOS, publications, website, recruitment, legal issues, press and political work.

Every member is invited to join the Working Groups.
